

Drive Sales and Engagement

Augmented Reality for Direct Selling

LEVERAGE AUGMENTED REALITY TO BRING YOUR PRODUCTS TO CUSTOMERS' HANDS. DELIVER ENGAGING DIGITAL EXPERIENCE TO ENCOURAGE THEM TO BUY. ALLOW YOUR CUSTOMERS TO VIRTUALLY TRY YOUR PRODUCT FROM THE COMFORT OF THEIR HOME TO INCREASE THEIR LOYALTY AND GENERATE SALES

How it works

Augmented Reality brings users information that exists in the digital world and presents it automatically and intuitively in association with things in the real, or physical, world. Users discover interactive content such 3D models of products, video, or discount coupons overlaid on a live video from their smartphone camera

Virtual Try On

- Showcase a wide range of your products such as wearables and beauty items on your customers' faces and hands
- Increase customer engagement thus improve your sales

Product virtualization

- Enable consumers to see your real-size products in their homes, where they meant to be
- Let users explore in-depth 3D models of your products
- Drive sales by removing the initial guesswork and common objections

Interactive product presentations

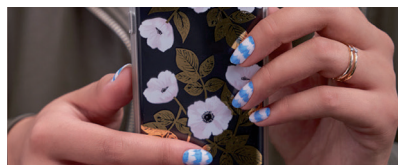

- Turn your paper catalogues into digital presentations
- Get insight on the preferences of your shoppers. See which product has more views and shares
